

1599 - Fremont County Headstart

Retail Food - Retail Food

Physical Address:

1718 BROOKSIDE Canon City, CO 81212

County: Fremont (22)

INSPECTION DATE:

09/24/2009

INSPECTION TYPE:

- REGULAR
- INTERVENTION
- FOLLOW-UP
- PRE-OPERATIONAL
- COMPLAINT

RED→CRITICAL ITEM VIOLATIONS are more likely than other violations to contribute to food contamination or illness. These violations involve the food source and condition, food cooking and storage temperatures, sanitizing utensils, water and sewage, handwashing and other sanitary practices, handwashing sinks and supplies, pest control and use of poisonous materials.

FOOD SOURCE

01b. Wholesome, free of spoilage

- ↳ Corrective Action: Corrected On-Site. Correct-By: 09/24/2009
Inspector Comments: Badly dented can (dent on side, dents on top and bottom rims) of salsa on shelf with other canned goods and not stored in a segregated area for return to the distributor for credit (or discarded).

PERSONNEL

02d. Hygienic practices

- ↳ Corrective Action: Corrected On-Site. Correct-By: 09/24/2009
Inspector Comments: Disposable gloves were removed and reused.

WATER, SEWAGE, PLUMBING SYSTEMS

05c. Backflow, back_siphonage

- ↳ Corrective Action: Corrected On-Site. Correct-By: 09/24/2009
Inspector Comments: The end of the spray hose hangs down into the sink basin. When not using the sprayer, hang it so it's above the rim of the sink.

BLUE→NON-CRITICAL ITEM VIOLATIONS are not directly related to the cause of food-borne illness, but if uncorrected, could negatively affect the operation of the restaurant. These include a lack of facility cleanliness and poor maintenance of equipment and facilities.

EQUIPMENT DESIGN, CONSTRUCTION

10b. Nonfood-contact surfaces

↳ Inspector Comments: The door latch on the Walk-In Freezer door doesn't catch properly.

10c. Dishwashing facilities

↳ Inspector Comments: The kitchen doesn't have an approved 3-compartment sink, the 2-compartment sink and separate 1-compartment sink are combined to provide a total of 3 sink compartments (a small commercial dishmachine is also available in the kitchen).

PHYSICAL FACILITIES

14a. Plumbing: installed, maintained

↳ Inspector Comments: Condensate from the Walk-In Freezer drains into a bucket behind the building. Eventually the bucket needs to be replaced with an electric evaporation unit made specifically for this type of situation.

↳ Inspector Comments: Garden hose with a shut-off nozzle on the end is attached to the hose bib next to the back kitchen door. The hose bib is equipped with a vacuum breaker, however the shut-off nozzle makes the vacuum breaker non-functioning.

NOTES / COMMENTS:

9:30am.

RECOMMENDED REGULATORY ACTION(S), RESOLUTION(S) & INTERVENTIONS:

CIVICS: **ON-SITE FOLLOW-UP:**
